

JUPITER

NEUTRAL CLEANER AND DEGREASER CONCENTRATE

JUPITER is a highly efficient neutral concentrated HARD SURFACE CLEANER for cleaning walls, floors, kitchen working surfaces, lino, vinyl, leather, painted surfaces, glass, marble, porcelain, ceramics, rubber, steel, etc., leaving a smear-free finish.

Non-alkaline. JUPITER has a neutral pH value, so is kinder to skin than alkaline hard surface cleaners, yet it is effective and immensely powerful.

JUPITER dilutes quickly in hot or cold water, and its emulsifying action holds dirt and grease in suspension, allowing swift and easy removal without severe agitation.

JUPITER hard surface cleaner is non-toxic.

JUPITER is available either with a pleasant fragrance, or fragrance-free which is suitable for hard surface cleaning in the Food Processing and Catering Industries.

JUPITER may be used by spray, sponge, dip tank or mop and bucket, and is suitable for use in floor scrubbing machines. For heavy soiling, and removal of solidified fats and oils JUPITER should be diluted with 4 or 5 parts hot water, and with up to 80 parts

STORAGE AND HANDLING: Keep tightly closed in original containers. Keep away from sunlight and extreme temperatures.

Incompatible with bleach.

pH 9.0 ± 0.5

COSHH Data: A safety data sheet (MSDS) providing additional information is available on request.

Packaging Sizes:

4 x 5 litre jerrycans

25 litre drums

210 litre barrels

BENEFITS:

- Skin-friendly yet powerful
- Emulsifies even solidified oil and grease.
- Biodegradable
