

MULTIPLEXO

ADVANCED MULTI-PURPOSE CLEANER AND DEGREASER

MULTIPLEXO is an effective biodegradable cleaner and degreaser that affords the benefits of a classic hard surface cleaner, but also the superior degreasing power of a solvent-based degreaser.

MULTIPLEXO is a highly advanced formulation, originally developed for use in areas where heavy deposits of grease and grime are problematic, but where safety is an overriding concern, such as the cleaning of engines. Thus, MULTIPLEXO presents no hazard from toxic fumes or flammability, but is diluted with water for ultimate safety and economy.

MULTIPLEXO provides almost infinite versatility. It can be used for arduous cleaning applications, including ultra-sonic cleaning, as a pressure wash additive, as a soft and hard surface cleaner (it is even safe to use on leather). It is effective when used for cleaning floors, especially if applied via a mechanical scrubber, and leaves no whitish alkaline bloom. It can be used hot or cold, although temperatures above 60°C are not recommended.

METHOD. MULTIPLEXO may be diluted with up to 40 parts water, depending on the severity of soiling. As a guide, best results will often be obtained at a dilution within the range of 10:1 (10%) and 20:1 (5%) with water. Apply by mop, sponge, spray, dip tank, ultra-sonic tank or pressure wash machine.

STORAGE AND HANDLING: Keep tightly closed in original containers. Keep away from sunlight and extreme temperatures.

pH: Neat: 7-9, 1% dilution: 7-9
Mild citrus odour

SDS Data: A safety data sheet (SDS) providing additional information is available on request.

Packaging Sizes:

Cases of 2 and 4 x 5 litre jerrycans

25 litre drums

210 litre barrels

BENEFITS:

- Amazingly versatile and powerful yet gentle
- Use on any surface that will tolerate water
- Cleans components, equipment, walls, floors and work surfaces.
- Water dilutable for maximum economy
- Environmentally biodegradable
- Non-flammable
- Cleans machinery, walls, floors, painted surfaces, etc
- Safe for the user.
- PH neutral
- Caustic-free
- Ability to replace several products
